

 A banner with a gradient from orange to purple. On the right side, there are various dental-related icons like a tooth, a toothbrush, a dental chair, and a calendar.

SYMPOSIUM ON WORKFORCE MODELS

DECEMBER 5, 2020 • ONLINE

Dear Colleague,

You may recall that we had planned to offer a Symposium on Workforce Models last March; however, COVID-19 intervened and our live conference had to be postponed. Many of you have contacted us asking if we could provide the meeting as a virtual conference. **We are excited to announce that we have partnered with ADHA and will be offering this symposium as a virtual conference on Saturday, December 5th!** All of the same speakers have graciously agreed to present on this date and we hope you can join us. Please see the details below (and attached).

Kindly,

JoAnn

SYMPOSIUM ON WORKFORCE MODELS

DECEMBER 5, 2020 • ONLINE

Let's meet this challenge, together!

Almost all oral disease is preventable, yet our nation continues to be challenged by an oral health access crisis. New types of dental providers and workforce models are needed to meet the oral health needs of the public. We'll take a closer look at how dental hygienists and dental therapists are helping to improve access to care. Plus, we'll explore curricular models to support primary care concepts.

[Click Here to Register!](#)

(Hyperlink is embedded, but just in case <https://mymembership.adha.org/symposium>)

Join us virtually to:

- Provide examples of current workforce models used to increase access to care
- Learn how to describe curricular changes that can be implemented to prepare students and practitioners for current and future workforce models
- Recognize the impact dental hygienists and dental therapists can have on the health of the public working beyond the traditional private practice setting.

Register today and get ready to experience a call to action as you consider steps needed to prepare students and clinicians for workforce models for contemporary practice and the future.

The registration fee is \$75.00, you have the opportunity to earn up to 3.5 CE credits.

Click [HERE](#) to see the agenda.
